CodeDushyant — Prime_Runner — Prime_Runner

Professional Summary

Computer Science undergraduate (B.E.) with expertise in MERN Stack development, C++, and Data Structures and Algorithms (600+ LeetCode problems solved). Experienced in architecting full-stack web applications, integrating Generative AI APIs, and building scalable RESTful microservices.

Technical Skills

Languages: C++, C, JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, React Hooks, Tailwind CSS, Responsive Web Design
Backend & Cloud: Node.js, Express.js, RESTful APIs, MongoDB, SQL, Vercel, Netlify, Amazon Web Services (AWS)
AI Tools: Generative AI Integration, Gemini API, Prompt Engineering
Core CS & Tools: DSA, OOP, DBMS, OS, Computer Networks, Git, GitHub, Postman

Experience

Shyontech Software Technology India Pvt. Ltd. (Certificate) **May 2025 – Jul 2025**
MERN Full Stack Development Intern *Gwalior, India*

- Developed responsive and reusable React.js components across **3+ core modules**, ensuring consistent UI design, improved responsiveness, seamless user interactions, and enhanced overall interface usability and user engagement.
- Created reusable React.js components using Hooks, reducing duplicate UI code across pages by **30%**.
- Collaborated with designers and backend teams to complete user-facing features on schedule.

Projects

DSA AI Agent | *Node.js, Express.js, Gemini API, REST API* | Live | GitHub **Jul 2026 – Present**

- Built a Generative AI DSA tutor powered by Gemini API, delivering context-aware C++ solution breakdowns.
- Applied targeted prompt engineering pipelines, reducing off-topic outputs and hallucinations by **40%**.
- Deployed an Express.js REST API service on Vercel, ensuring sub-500ms real-time API responses.

Digital Expense Tracker | *MERN Stack, JavaScript, MongoDB* | Live | GitHub **Jan 2026 – Jun 2026**

- Developed full-stack tracker from MongoDB database schemas to deployed React.js user interfaces.
- Configured automated email notifications for **3 recurring bills**: rent, electricity, and mobile services.
- Visualized monthly income, category-wise spending, and trend insights using interactive charts.

GroundBook | *MERN Stack, JavaScript, MongoDB* | GitHub **Aug 2025 – Dec 2025**

- Designed a ground booking platform with **3 core modules**: bookings, availability, and user profiles.
- Integrated real-time booking verification logic to prevent slot overlapping and double-booking.
- Engineered robust search, filter, and sorting features based on location, sport type, and slot availability, improving user engagement by 40% and increasing monthly bookings by 25%.

Education

Chandigarh University **2023 – Present**
Bachelor of Engineering (B.E.), Computer Science | CGPA: 7.61 / 10 *Mohali, Punjab, India*

Seven Hills School **2022 – 2023**
Higher Secondary (Class XII), CBSE | Percentage: 82.8% *Etawah, UP, India*

Seven Hills School **2021 – 2022**
Secondary (Class X), CBSE | Percentage: 85.33% *Etawah, UP, India*

Achievements

- **Webathon Finalist:** Secured 3rd Position out of 50+ teams in a competitive web development hackathon.
- **AlgoArena Top Performer:** Secured 4th Position in AlgoArena DSA competition under strict time bounds.
- **Competitive Programming:**Achieved a Global Rank of 394 in Codeforces Div. 3 Contest 1122, with a current rating of 1254.
